

VARIETY DETAILS

ORIGIN: VSUO Holovousy, Czech Republic

PARENTS: 'Kordia' x 'Starking Hardy Giant'

GROWTH: quite strong growth with strongly drooping wood

BLOSSOM: medium-late, rich flowering, approx. 2 days before 'Regina', S-alleles S1S3

RIPENESS: 5th cherry week, approx. 16-18 days after 'Burlat'

APPEARANCE: beautiful heart shape (wider than cordia) with long to very long stalk; dark red, slightly marbled fruit skin, very good fruit size 28-30mm, fruit weight 11g

QUALITY: very good to good firmness, dark flesh

TASTECHARAKTER: Very good flavour, similar to 'Kordia', with high sugar values ($\geq 25^\circ$ Brix)

CROPYIELD: high and regular yields

SPECIAL NOTES: good cracking resistance
